CT – 265A

SPECIALTY CLEANER

TURBO CHARGER SILENCER

FEATURES

- Totally Non-flammable
- Non-Conductive, high dielectric strength up to 25,000 volts
- Very effective flushing action, (heavier than water)
- Fast drying
- No petroleum distillates
- Safe on energized electrical equipment
- Displaces humidity
- Dissolves oils in seconds
- Removes carbon deposits

PROPERTIES

Appearance: Clear liquid
Odor: Chlorinated solvent odor
Specific gravity: 1.46 gr/cc
Non volatiles: 0 %
Chemical type: Dielectric solvent
Storage stability: Keep above 45 ºC and from water
Boiling point: 87 ºC
Vapor pressure : 61 mmHg@20ºC
Solubility: Non water soluble
Vapor density: 4.5
Packaging: 55 gallon drum

- Properties are typical and subject to usual manufacturing tolerances.

TURBO CHARGER SILENCER is a residue free, super fast drying, high power liquid dielectric solvent that dissolves grease, oils, carbon residues and rinses away dirt and grime, without damaging working parts. Its high dielectric strength combined with non-flammability make this product the only cleaner/degreaser spray safe for use on motors, generators, turbines, blowers, relays, and control panels even while equipment is in operation. TURBO CHARGER SILENCER evaporates quickly, allowing an operation of dust vacuuming after cleaning if desired. To use, saturate parts to be cleaned, wipe or allow to air dry and vacuum or air jet with compressed dry air. Can be applied with a PET or metal spray bottle, or poly-sprayer with appropriate seals. Make sure container used is free of humidity or water to avoid electrical conductivity in electrical motors. For heavily encrusted areas, brush and then rinse with a second application or blow air to rinse. May remove some paints, pre-testing is suggested. Do not use on plastics. Harmful Vapors. Toxic solvent. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
