

**ODOR CONTROL****AUTO  
ODOR ELIMINATOR****FEATURES**

- Selectively captures malodor molecules
- Eliminates odors from organic waste and bacteria
- Acts on organic aromatic and cyclic molecules like Mercaptans, Terpenes, Amines, Sulfides, Smoke, Ammonium, etc.
- Keeps acting after applying
- Safe to the environment
- Leaves a pleasant fragrance
- Stabilized and preserved water based formulation

**PROPERTIES**

**Appearance:** Hazy white solution of low viscosity

**Boiling point:** 210 °F

**Specific gravity:** <1.00gr/cc

**Non volatiles:** 4-6 %

**Solubility in water:** Soluble

**Storage stability:** Keep away from oxidizers and high temperatures

**Chemical Type:** Clathrate inclusion complex and aromatic compounds

**pH:** 6.5-7.5

**Packaging:** Case of 12 quarts  
Case of 4 and 6 gallons  
Pail with 5 gallons

- Properties are typical and subject to usual manufacturing tolerances.

AUTO ODOR ELIMINATOR is a liquid odor encapsulant especially design to be used in cars, trucks and vans, and all vehicles, allowing it to captures all malodor molecules, in seconds. It is specially formulated with a unique molecular structure to encapsulate, counteract and eliminate aromatic and heterocyclic molecules, derived from smoke, pets, and bodily segregation, mildew and mold odors caused by humidity, and other unpleasant odors. The chemical and physical properties of AUTO ODOR ELIMINATOR allows it to keep acting after application, in a continuous manner.

To apply AUTO ODOR ELIMINATOR, shake bottle first, and remove consumables and pets from the vehicle; apply various sprays on each area of the interior, starting from top headliner and down to the carpets, making sure to hit seats and hidden spots. Allow the mist to settle and penetrate fabrics. Finally turn on the car's air conditioner and set on HIGH FAN, and spray the intake sufficiently, to reach the interior of the vents. A reapplication may be necessary for highly concentrated odor sources. Finally, wipe off surfaces to remove excess product, especially on wood, glass or hard plastics. Do not puncture or incinerate. AUTO ODOR ELIMINATOR is very safe to use, and safe to the environment; however, care must be taken when handling chemicals, and appropriate safety wear must be worn. Refer to SDS for additional precautions and first aid instructions. We are not responsible for any use not recommended by ChemTron.
