**Solubility:** Complete in water

**Storage stability:** Store product away from ignition source, acidic materials, and sun light.

**Packaging:** Package— 4x1 gal Case  
5x1 gal Pail

- Properties are typical and subject to usual manufacturing tolerances.

Automatic Dishwashing Liquid is an alkali detergent that is guaranteed to remove accumulated grime and disinfect in one quick application. It is ideal for use in automatic dishwashers at high or low temperatures. Automatic Dishwashing Liquid is versatile enough to clean any type of kitchenware, removing grease and leaving glassware sparkling clean.

**DIRECTIONS FOR USE:** Use with automatic dishwasher to clean all types of kitchenware (Except aluminum). Adjust dishwasher settings depending on the concentration of Automatic Dishwashing Liquid being used. Concentration may vary between 45ml to 90ml per 2 gallons of water.

Refer to the label and attached SDS for further instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
