BELT DRESSING

FEATURES

- Cleans, preserves, water-proofs and adds flexibility to old belts
- Adheres to rubber, leather, fabric, and synthetic belts
- Reduces belt slippage while increasing service life
- High Tack and Non-Staining
- 360° Valve sprays in Upright and Inverted position

PROPERTIES

Appearance: Transparent liquid with solvent odor contained in an aerosol can.

Boiling point: 220 °F

Specific gravity: 0.997 gr/cc

Total VOC: 80 %

Solubility in water: Slightly soluble

Flash point: (of concentrate) 43 °F

Storage stability: Keep away from high temperatures and open flames

Flammability: Level 2 Aerosol

Packaging: 12x11oz. Net Wt. Cans/Case

- Properties are typical and subject to usual manufacturing tolerances.

BELT DRESSING is a powerful pinpoint spray that can be safely applied to both sides of belts, even while in use. Treatment using BELT DRESSING eliminates belt slippage while increasing equipment efficiency and lengthening belt life. It is effective for indoor and outdoor environmental conditions and provides a high tack gripping power for complete energy transfer. The compound will not glaze and does not attract dust or dirt.

BELT DRESSING can be used on all types of belts, including "V" Type, Flat and Round belts. It is ideal for belts made of leather, rubber, fabric and synthetic materials. Refer to the label and SDS for instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
