

## HEAVY DUTY DEGREASER

---

# BILGE CLEANER

### FEATURES

- Excellent wetting and penetration
- Citrus odor
- Safe to use and safe to apply on all surfaces that can be washed with water
- Can be used to remove mineral grease, animal fat and oils
- Can be used on metals, stainless steel, plastics, walls and floors
- Great solvency
- Low solvents emissions
- Very Low alkalinity

### PROPERTIES

**Appearance:** Clear red liquid with citric odor

**Flash point :** Non Flammable

**Specific gravity:** 1.02-1.04 gr/cc

**Non volatiles:** 15-25 %

**Solubility in water:** Total

**Chemical type:** Low alkalinity Degreaser

**Storage stability:** Very Stable

**Boiling point:** 212 °F

**pH :** 10.5-11.5

**Packaging:** 4 x 1 gallon Case

- Properties are typical and subject to usual manufacturing tolerances.

BILGE CLEANER is a Heavy Duty Degreaser that can safely be used to remove heavy soils, greases and oils from most surfaces, without the need for excessive scrubbing and rinsing. BILGE CLEANER is extremely effective on floors, painted walls, metal parts, mechanical motors, and other hard surfaces. It is also versatile enough to be effective on carpets, plastics and rubber. Simply apply by spraying directly on surface or dilute in water and apply with a mop or cloth. Leave a few minutes, brush if necessary and then rinse with water or wipe off with damp cloth. This special degreaser can be diluted between 5 to 50 times with water, depending on the job. Refer to the label and SDS for additional use information and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
