

LAUNDRY FABRIC CARE

CHEM-DET

FEATURES

- Special blend of ionic and non ionic surfactants and anti-redeposition agents
- One shot concentrated liquid detergent
- Contains active alkaline ingredients as well as glycol solvents to enhance solvency
- Works in hot and cold water
- Easy rinsing

PROPERTIES

Appearance: Clear amber liquid with Fresh and clean fragrance.

Boiling point: 212 °F

Specific gravity: 1.05-1.20 gr/cc

Non volatiles: 25-35 %

Solubility in water: Complete

Storage stability: Min 1 year
Medium level foam. Compatible with all other alkaline detergents and cleaners

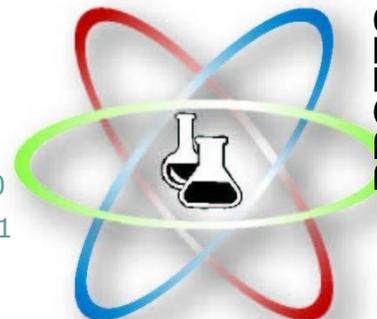

pH of liquid: Basic (13-14)

Flammability: Non-flammable

Packaging: 4x1 gallon Case
5 gallon Pail
35 gallon Drum
55 gallon Drum

CHEM-DET is a concentrated heavy duty laundry detergent for institutional and commercial use. Use in mechanical or electronic dispensing systems at a dosage of 4-8 oz per 50 lbs linen load, depending on soil conditions and fabric. CHEM-DET can be used with hot or cold water and tolerates water hardness up to 400 ppm or more of dissolved solids (>20 grains). Water should be checked for the presence of iron or metals before washing as they tend to change the fabric's appearance. CHEM-DET is safe on colors and leaves a pleasant aroma after rinsing. It can be used with all types of fabrics and linens, and can be used for ready to wear fabrics, however rinsing and sour treatment is necessary. Refer to the label and SDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
