

LAUNDRY FABRIC CARE

CHEM-SOFT

FEATURES

- Concentrated formula
- Significantly reduces static electricity
- Reduces drying time and optimizes overall laundry process
- Imparts a soft touch finish and a pleasant fragrance on fabrics

PROPERTIES

Appearance: Viscous light blue liquid with floral fragrance

Boiling point: 212 °F

Specific gravity: 1.05 gr/cc

Non volatiles: 10 %

Solubility in water: Soluble

Chemical type: Non-Silicone Cationic Surfactant

Storage stability: More than 1 year. Stable under normal storage conditions. Compatible with most laundry chemicals.

pH of liquid: 4-6

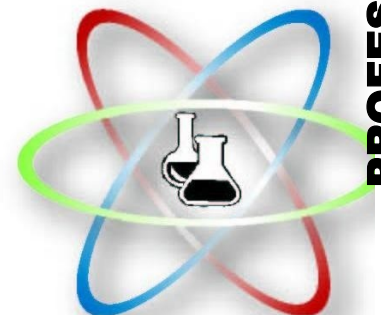

Flammability: Non-flammable

Packaging: 4x1 gallon Case
5 gallon Pail
35 & 55 gallon Drums

CHEM-SOFT is a concentrated liquid fabric softener and anti-static agent, formulated to reduce wrinkling and increase softness. CHEM-SOFT lubricates and conditions fabrics, facilitating the pressing or ironing process while imparting a pleasant aroma.

CHEM-SOFT is easy to dilute and should be loaded in the last rinse. It can be used in hot or cold water and is ideal for use in institutional, commercial, and industrial laundries. A dilution of 2-4 oz per 50 lbs of dry fabric can be used. Do not use with hard water or with anionic surfactants. Refer to the label and SDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
