

## ODOR CONTROL

**CHEMBREZE****FEATURES**

- Non-toxic, non-acid, non-alkaline odor eliminator
- Special, silicone encapsulating molecule
- Specially formulated for efficient elimination of strong odors
- For commercial and household applications
- Not a masking agent
- Leaves a pleasant fragrance
- Safe to the environment
- Readily Biodegradable

**PROPERTIES**

**Appearance:** Dark green solution

**Odor:** Forest breeze

**Viscosity:** 50-100 cps

**pH:** 4-6

**Specific gravity:** 1.04 gr/cc

**Boiling Point:** 212 °F

**Non Volatiles:** 9-11 %

**Solubility in Water:** Total

**Chemical Type:** Encapsulant

**Flammability:** Non Flammable Liquid

**Packaging:** 4x1 gallon Case  
12 qt. w/ sprayer Case  
5 gallon Pail  
35 or 55 gallon Drum

- Properties are typical and subject to usual manufacturing tolerances.

CHEMBREZE, is a special combination of odor counteractants and odor eliminators, in a concentrated formula that effectively traps and encapsulates odors from human, pet urine and body segregations. Also neutralizes odors caused by mold, mainly due to humidity and organic residues from food and cooking. This product is very safe to use, safe to the environment and readily biodegradable. CHEMBREZE should be diluted at least 15 times with water before use and applied directly on odor source and all areas exposed to undesired odors. Apply CHEMBREZE with a fine spray or fine mist over the whole surface exposed to undesired odors. Allow product to wet surface and remove excess if needed. Apply generously on soft goods and fabrics like curtains, carpets and under upholstery and couches. CHEMBREZE can also be applied as a non-rinse deodorizing solution, when used to mop floors in restaurants and restrooms. Refer to the attached SDS for precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
