Flash point: None

Storage stability: Keep away from moisture and acidic materials

pH of liquid: Very Alkaline

Flammability: Non-Flammable

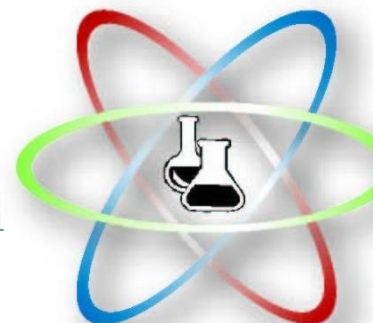

Packaging: 20 lbs. Pail

- Properties are typical and subject to usual manufacturing tolerances.

CHEMTRON 225 POWDER is formulated with a Calcium Oxide / Hydroxide blend to dry out organic material. It can be applied to deceased organism that give off malodors and attract bugs and scavengers. It can also be used to dry out animal feces, blood and any other organic material. To use, sprinkle a light coat of 225 POWDER onto the affected area and allow it to soak up all the moisture. 225 POWDER can even be mixed with water and applied onto walls.

Refer to the label and attached SDS for instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
