SPECIALTY CLEANERS

CITRUS FLOAT

FEATURES

- Super concentrated Formula
- Excellent for duct and pipe cleaning
- Cleans, Degreases and Deodorizes
- Environmentally safe; no V.O.C.'s
- Floats and forms an odor barrier on water
- No Chlorinated solvents, Hydrocarbon solvents, or petroleum Distillates
- Non-Acid, Non-Caustic, Non-Corrosive
- Fast penetrating action, cuts through gums, grease, wax, paints and everyday dirt and soil
- Cleans and maintains drains, pipes and grease traps
- Wipes off oils at contact
- Thick formula, special for metal cleaning

PROPERTIES

Appearance: Beige/dark yellow liquid with citrus-orange odor

Boiling Point: 310-330 °F

Specific gravity: 0.860 gr/cc

Chemical type: Citrus Terpenes blend

Storage stability: Keep in closed container away from open flame and below 120 °F

% Volatiles: 60-85 %

Flash point: >144 °F

Flammability: Combustible liquid

Solubility in water: Non soluble, Floats on water

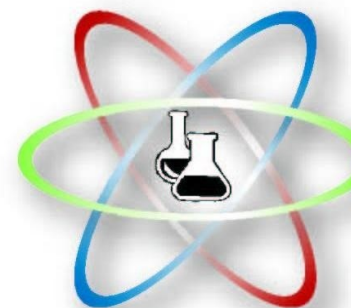

Solubility in solvents: 95%

Evaporation Rate: Medium to fast

Packaging: Metal 55 gal drums
5 gal pails
4 x 1 gal cases
12 Qt. Case

CITRUS FLOAT is a super concentrated, heavy duty, fast acting citrus Terpene solvent blend that penetrates, cleans and dissolves even the heaviest greases. This novel product is manufactured entirely from organic plant and vegetable materials and a special thickening blend. CITRUS FLOAT is the perfect product for use as a drain maintainer, a degreaser and an odor counteractant where rapid action is required. It is recommended for use in Household, Hotels, Institutions, Automotive and Mechanical Shops, Maintenance, Marine Applications, Printing Industry, Pharmaceutical, Medical, Oil, Gas and Petroleum Industry, Water and Waste treatment. To use CITRUS FLOAT, add undiluted to drains, grease traps, manholes, piping where odor and floating grease and oils are a problem. CITRUS FLOAT will act as a barrier to bad odors, while its odor encapsulating molecules will trap and neutralize the odor. The high solvency of CITRUS FLOAT, will help dissolve and softens old grease and tough oil deposits that float on water, helping also to separate them from water in water treatment plants, at the moment of pumping top layers off. See label for additional information on uses. Do not take internally. Avoid contact with eyes and skin. Refer to the attached SDS for precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
