- For industrial, institutional, commercial and residential applications
- Does not stain nor contaminates the air

PROPERTIES

Appearance: Beige round or square solid block with citric odor

Dimensions: 2.5- 3.0 inch diameter and 1.5 inch tall

Specific gravity: solid, 0.8 gr/cc, (floats in water)

Melting Point: Greater than 200° C

Non Volatiles: 30%

Solubility in Water: Partial

Chemical Type: Terpenes and salts

Flammability: Non-flammable

Packaging: Case of 36 discs

CITRUS DISCS urinal block is a blend of different strains of bacteria cultures and enzymes, formulated with solid detergents that constitute a powerful biological cleaning agent. CITRUS DISCS are made of non-PDCB ingredients, designed to be safer and less damaging than conventional chemical urinal blocks. CITRUS DISCS counteract and eliminate odors, through their bacterial and enzyme content which are non pathogenic and are on the US TSCA inventory as well as the Canadian DSL list. These blocks are packaged for direct addition to urinals to continuously clean and reduce blockages and are proven to maintain clear and odor free urinal traps and lines. They also replenish and boost the supply of invaluable micro-organism and allows natural activity of digestion in the septic tanks, sewer ways and water treatment plants. CITRUS DISCS are suitable for all types of urinals, including stainless steel, porcelain, plastic composites and ceramic troughs. Keep away from reach of children. Refer to the label and attached SDS for instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
