

**HAND CLEANSER****COCO WHITE HAND SOAP****FEATURES**

- Powerful cleaner removes dirt and grease
- Gentle skin emollients enhance skin softness and texture
- Does not clog soap dispensers
- Has pleasant coconut fragrance

PROPERTIES

Appearance: White liquid with coconut fragrance.

Boiling point: 190 °F

Specific gravity: 1.08 gr/cc

Non volatiles: 9-10 %

Solubility in water: Soluble

Flash point: 130 °F

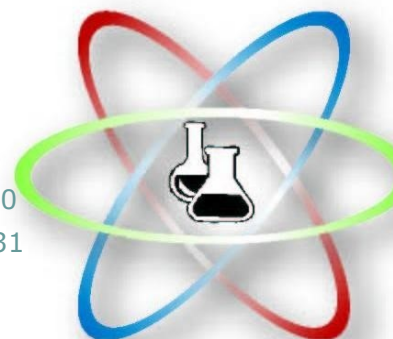

Storage stability: Keep away from strong oxidizers

Flammability: Non flammable

Packaging: 4x1 gallon Case

COCO WHITE HAND SOAP is a rich viscous hand cleaner made from the finest coconut oil available. It contains effective grease and dirt solvers, skin emollients, and fragrance. Although a thorough skin cleanser, this lotion is extremely mild. Repeated use enhances skin softness and texture, rather than causing dermatitis or other skin disorders. In use with water this viscous liquid generates a rich, thorough cleansing lather. It lifts and removes grease and dirt from hard to reach areas such as crevices around knuckles and under fingernails. This liquid is a concentrate and may be diluted 1 to 3 times with water. This lotion does not clog dispensers as other hand soaps do. It stays fresh and free flowing in the dispenser tank and is always ready for immediate use. Refer to the attached SDS for precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
