## INDUSTRIAL CLEANER

# CONCRETE DESCALER

### FEATURES

- Heavy Duty concentrated Acid Cleaner
- Removes Stains and Rust from all concrete surface and grout
- Contains a corrosion inhibitor
- Easy to use and Fast action
- Cost effective
- Low foam surfactants for easy rinsing

### PROPERTIES

**Appearance:** Green liquid with pungent odor.

**Boiling point:** 228 °F

**Specific gravity:** 1.10 gr/cc

**Non volatiles:** 14 %

**Solubility in water:** Complete

**Flash point:** None

**Storage stability:** Keep away from heat and acids

**pH of liquid:** Very Acidic (1)

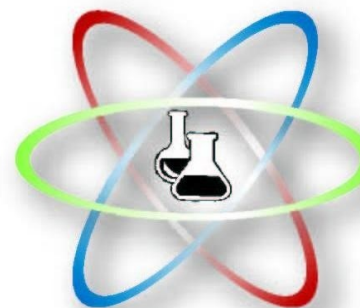

**Flammability:** Non-Flammable

**Packaging:** 275 gallon Tote

CONCRETE DESCALER is a ready to use blend of inorganic acid and surfactants, formulated to effectively clean and de-stain all type of cement and concrete, porous and non porous surfaces. It can also be used to remove cement residues and grout from hard non porous tiles; however, before application spot test on surface. It can be diluted up to 5 times with water. CONCRETE DESCALER also removes metal oxides and scale from concrete and metal surfaces, restoring their natural appearance. This heavy duty acid cleaner also contains a rust inhibitor that avoids rusting on contacted metals. For difficult jobs, simply apply the undiluted product on surface to be treated. For normal jobs and maintenance, dilute as desired, up to 5 times and apply with a sprayer or brush. Soak the surface for 15 minutes for desired results, repeat the operation if necessary. Keep vertical surfaces well saturated during soak time.

Do not use CONCRETE DESCALER on chrome, magnesium, zinc or aluminum. Finally, rinse with water and collect with wet vacuum or allow to dry. Prior to using CONCRETE DESCALER, remove any grease or oils are on the surface to be treated. Handle product with care as it contains strong acids. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
