INDUSTRIAL CLEANERS

CONCRETE SOFTENER 729

FEATURES

- Heavy duty concrete cleaner and softener
- Softens concrete and cement to be easily removed from any surface
- Safe for the user and the environment
- Totally biodegradable and non hazardous chemical
- Fast acting and easy to use
- Low foam surfactants for easy rinsing
- Non corrosive to metals

PROPERTIES

Appearance: Clear liquid with no odor

Boiling point: 228 °F

Specific gravity: 1.01-1.05 gr/cc

Non volatiles: 15-20 %

Solubility in water: Complete

Storage stability: Min 1 year. Keep away from Oxidizers.

pH of liquid: 2-4

Flammability: Non-flammable

Packaging: 4x1 gallon Case
5 gallon Pail
55 gallon Drum

CONCRETE SOFTENER 729 is a Heavy Duty concrete cleaner and remover, that acts attacking the cement and concrete at a molecular level. It acts by softening the concrete surface, and making it very easy to wash away. It is formulated with very safe raw materials and surfactants, totally biodegradable. It is very safe on people and the environment and is not considered a hazardous chemical, like most of the acid cleaners. It acts on all types of cement blends, porous and non-porous surfaces, and is very effective in removing it from wood, plastic and metal surfaces. It can also be used to remove cement residues and grout from hard non-porous tiles, however make sure to spot test for any unwanted results. **Concrete Softener 729** should be left to act on soft concrete for 10 to 20 minutes; if the concrete or cement has been hardened for over time, the product should be left to act for several hours or overnight. Use **Concrete Softener 729** undiluted, applying it with a sprayer or brush to the target surface. Let soak for 15 minutes, rinse with pressure water. Repeat operation if necessary. Keep vertical surfaces well saturated during soak time. Refer to the label and SDS for additional instructions and precautions. The information contained in this data sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
