

**INDUSTRIAL CLEANERS****CONCRETE CLEANER AND RESTORER****FEATURES**

- Heavy Duty Acid Cleaner
- Restores natural appearance to cement and concrete
- Removes stains and rust from grout and concrete surfaces
- Contains corrosion inhibitors to protect metals
- Fast acting and easy to use
- Low foam surfactants for easy rinsing

**PROPERTIES**

**Appearance:** Green liquid with pungent odor.

**Boiling point:** 228 °F

**Specific gravity:** 1.10-1.20 gr/cc

**Non volatiles:** 15-20 %

**Solubility in water:** Complete

**Storage stability:** Min 1 year. Keep away from alkaline products

**pH of liquid:** 1-2

**Flammability:** Non-flammable

**Packaging:** 4x1 gallon Case  
5 gallon Pail  
35 gallon Drum  
55 gallon Drum

CONCRETE CLEANER AND RESTORER is a concentrated blend of inorganic acid and surfactants, formulated to effectively clean and de-stain all type of cement and concrete, porous and non-porous surfaces. It can also be used to remove cement residues and grout from hard non-porous tiles, however make sure to spot test for any unwanted results. CONCRETE CLEANER AND RESTORER also removes metal oxides and scale from concrete and metal surfaces, restoring their natural appearance. This heavy duty acid cleaner contains a rust inhibitor that prevents rusting on contacted metals. To use, remove grease and oils from surface using a degreaser and apply CONCRETE CLEANER undiluted to the target surface with a sprayer or brush. Let soak for 15 minutes, rinse with water and collect with wet vacuum or allow to air dry. Repeat operation if necessary. Keep vertical surfaces well saturated during soak time. Do not use this product on chrome, magnesium, zinc, or aluminum. Handle with care. Refer to the label and SDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
