## COPPER AND SOFT METALS ACID BASED CLEANER

# COPPER COIL CLEANER

### FEATURES

- Phosphoric Acid / Non-ionic Surfactants / Specialty Solvents Blend
- Removes rust, scale, carbon, grease, metal oxides and other organic deposits
- For use on copper, brass and other soft metals and alloys
- Can be applied with a sprayer or used as a dipping solution

### PROPERTIES

**Appearance:** Clear, white to yellow liquid with solvent odor.

**Boiling point:** 220 °F

**Specific gravity:** 1.15-1.20 gr/cc

**Non volatiles:** 34 %

**Solubility in water:** Complete

**Storage stability:** Keep away from direct sun light and store in original container

**pH of liquid:** Acidic (2-3)

**Flammability:** Non-flammable

**Packaging:** 6x1 gallon Case  
5 gallon Pails  
55 gallon Drums

COPPER COIL CLEANER AND REMOVER is an acid based liquid that removes hard water deposits, rust, metal oxides, scale, carbon, grease and organic deposits from copper, brass and other soft metals and alloys. COPPER COIL CLEANER contains a special blend of phosphoric acid, nonionic surfactants and specialty purpose solvents.

Directions: Use a spray or brush to apply a thorough coat to the coils with a solution of 1 part cleaner to 4 parts water. Depending on job requirements, product can be diluted up to 1 part cleaner to 8 parts water. Let stand for several minutes before rinsing with water. Handle product with care. Refer to the label and SDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
