

INSECTICIDE

CRAWL II**FEATURES**

- Broad spectrum insecticide
- Deep penetrating; Seeks out bugs where they hide
- Kills on contact
- Protects for up to 3 months
- For Residential, Commercial and Agricultural Use
- Can be used on Bedding, Furniture, and other objects infested with Lice

PROPERTIES

Appearance: Thin mist from aerosol can.

Boiling point: Not Applicable

Density: 0.97 g/cc

Non volatiles: Not Evaluated

Solubility in water: Dispersible

Storage stability: Keep away from high temperatures and oxidizing agents

Flammability: Non-flammable Aerosol

Packaging: 12x17oz Net Wt. Cans / Case

CRAWL II is a broad spectrum insecticide that is effective against a variety of pests including lice, spiders, cockroaches, silverfish, scorpions, centipedes, ants, moths and many more. For general use, close all doors and windows and direct spray upwards into center of room with a slow sweeping motion. Spray 5 to 10 seconds for average room, moving towards the door. Leave room and do not allow re-entry for at least 15 minutes. Sweep up and discard fallen insects and repeat treatment as necessary. CRAWL II may be harmful when not used appropriately. Do not use in food/feeding areas. Do not apply directly to any body of water. Refer to the label and attached SDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
