

ODOR CONTROL

DISAPPEAR

FEATURES

- Non-toxic, non-acid, non-alkaline odor eliminator
- Specially formulated for efficient digestion of organic residues
- For industrial and commercial applications
- Destroys odors at their source and keeps working
- Not a masking agent
- Neutralizes strong aromatic smells
- Safe to the environment

PROPERTIES

Appearance: Light amber solution

Odor: Citrus

Viscosity: 50-100 cps

pH: 7-9

Specific gravity: 1.00 gr/cc

Boiling Point: 212 °F

Non Volatiles: 5-8 %

Solubility in Water: Total

Chemical Type: Bacteria culture

Flammability: Non-flammable

Packaging: 4x1 gallon Case
5 gallon Pail
55 gallon Drum

- Properties are typical and subject to usual manufacturing tolerances.

DISAPPEAR is a special combination of strains of bacteria cultures and surfactants, in a concentrated formula to counteract and eliminate odors from garbage, organic residues, feces, spoiled food, fermenting sugars and mold amongst many other odor producing residues. DISAPPEAR should be used undiluted to clean toilet bowls, portable toilets, and dosed directly on odor sources. Quantity used will depend on the grade of odor and the purpose of the job. It can be heavily dosed (1 to 2 lb per 1000 lb residues) to correct an obnoxious odor situation or can be lightly dosed (1/8 to 1/4 lb per 1000 lb residues) in maintenance situations. Apply DISAPPEAR with a fine spray or fine mist over the whole surface exposed to undesired odors or use a metering pump to automatically dispense the required amount over time. Wipe off excess on surfaces. Use also to mop floor surfaces that could be soiled with organic residues and allow to flush into drains. Refer to the attached SDS for precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
