

SPECIALTY CLEANER

ENGINE

FEATURES

- Powerful and concentrated cleaner
- Removes scale, build up, and all types of organic deposits from engines and metal parts
- Works on Plastics and is ideal for pipes and coils.
- Not recommended for use on Aluminum

PROPERTIES

Appearance: Clear liquid with acid odor.

Boiling point: 212 °F

Specific gravity: 1.10 gr/cc

Non volatiles: 10 %

Solubility in water: Soluble

Storage stability: Keep away from direct heat and oxidizers

pH of liquid: 2

Flammability: Non-flammable

Packaging: 4 x 1 gallon Case
5 gallon Pails

ENGINE DESCALER is a concentrated acid based cleaner that removes scale, dirt deposits, dust, oxides, mildew, fungi, hair, oils and many other organic deposits from engines. ENGINE DESCALER contains a combination of Hydrochloric and other inorganic acids, a surfactant compound that acts as a anti re-deposition agent and a corrosion inhibitor chemical that prevents rusting and oxidation. For very high build up use product undiluted. Product can also be diluted depending on the job. ENGINE DESCALER is a strong acid. Handle with due care. Use safety goggles and acid resistant gloves.

Refer to the label and attached SDS for additional instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
