

GLASS CLEANER

FOCUS

FEATURES

- Excellent wetting and cleaning
- Very concentrated formula
- Safe to use on all surfaces that can be washed with water
- Can be used to remove dirt, light grease and oils
- Use on glass, mirrors, metals, stainless steel, Formica tops and plastics
- Can be diluted
- Non acid, Non alkaline
- Does not contain ammonia

PROPERTIES

Appearance: Clear dark blue color liquid with no characteristic odor.

Flash point : Non Flammable

Specific gravity: 0.98-1.02 gr/cc

Non volatiles: 3-5 %

Solubility in water: Total

Chemical type: Glass Cleaner

Storage stability: Very Stable

Boiling point: 212 °F

pH : 7.5-8.5

Packaging: 4 x 1 gallon case
12 Qt. Case
5 gallon pail
55 gallon drum

- Properties are typical and subject to usual manufacturing tolerances.

FOCUS is a concentrated Glass Cleaner that can safely be used to remove soils, light greases and oils. It is ideal for use on most surfaces such as glass, mirrors, and marble, and does not require excessive scrubbing or rinsing. FOCUS can be diluted with up to 15 parts of water and still perform well. It can be used in bathrooms, on floors, painted walls, plastics, rubber, metal surfaces and for most housekeeping requirements. Simply apply by spraying directly onto surface and removing with damp cloth. FOCUS does not leave oily residues, streaks or smears and when used regularly, creates an invisible barrier that provides an excellent water repellent and scratch resistant surface. Avoid contact with eyes. Keep away from reach of children. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
