

REFRIGERATION CLEANERS

ICE MACHINE CLEANER

FEATURES

- For Ice Machine equipment and pipes
- Concentrated, low foaming surface active descaler
- Safe formula, contains inorganic and organic acids which are FDA approved
- Instant action
- Easy to apply and easy to rinse
- Biodegradable
- Non flammable
- Does not affect painted surfaces
- No strong odors

PROPERTIES

Appearance: Low viscosity liquid with clear green color and no particular odor

Flash point : Non flammable

Specific gravity: 1.08 gr/cc

Non volatiles: 30-35 %

Solubility in water: Total

Chemical type: Acid Descaler

pH: 2-3

Storage stability: Keep away from direct sun light and Alkaline products.

Boiling point: 212 °F

Packaging: 4 gallon Case
5 gallon Pails
55 gallon Drum

- Properties are typical and subject to usual manufacturing tolerances.

ICE MACHINE CLEANER is a concentrated acid cleaner and descaler for serpentines, pipes, tubing and ice containers. This product is formulated with organic and inorganic acids in the presence of surfactants, for rapid removal of scale, calcium and other mineral deposits. It wets, penetrates and suspends organic soils; also removes rust and slime that could form on walls due to humidity. ICE MACHINE CLEANER is safe to use on stainless steel, steel, glass, chrome, copper or galvanized steel and plastics. The exact amount of ICE MACHINE CLEANER needed in any specific application will be dependant upon the nature of the soil, amount of soil to be removed and the type of surface. For general applications, dilute 1 gallon of ICE MACHINE CLEANER in 5 gallons of water. Circulate through equipment for 15-30 minutes. Rinse system well with clear water before reusing machine or pipes. For inside housing or ice container, apply the solution with a spray bottle or poly sprayer. Allow to act for 20 minutes, brush if necessary and rinse with water until all product is removed.

CAUTION: Contains Phosphoric Acid.

Rinse empty container before disposal. Avoid direct skin contact. It is advisable to wear protective clothing when using this product. Wash material from skin with soap and water immediately. If eyes are affected, flush with water for 15 minutes and contact a physician. If ingested, do not induce vomiting. Drink milk of magnesia or egg whites beaten with water. Consult physician. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
