

SPECIALTY CLEANER**MAGIC****FEATURES**

- Powerful cleaning action
- Works on warm or cold ovens, broilers, barbeque grills, and stainless steel components
- Product contains significant concentrations of Sodium Hydroxide; Handle with care

PROPERTIES

Appearance: Clear liquid
Boiling point: 225 °F
Specific gravity: 1.30 gr/cc
Non volatiles: 50 %
Solubility in water: Complete
Chemical type: Sodium Hydroxide solution
Storage stability: Keep away from direct sun light and Acid products
pH of liquid: Very Basic, 14
Flammability: Non-flammable
Packaging: 4x1 gallon Case

- Properties are typical and subject to usual manufacturing tolerances.

MAGIC OVEN CLEANER is a powerful solvent ideal for removing tar, grime, residues and stains from ovens and can also be used as a drain opener. MAGIC OVEN CLEANER works in minutes to remove stains and grime from warm or cold ovens. It can also be left overnight for tougher cleaning jobs. It is ideal for cleaning broilers, barbeque grills, stainless steel, and drains. Before using this product, food products and packaging materials must be removed from the area or carefully protected. After using this product, all surfaces must be thoroughly rinsed with water. This product must be handled with care and used in a manner so that all odors associated with the product are dissipated before food products or packaging material are re-exposed in the area. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
