- Does not damage any surface making it great for everyday use
- Deodorizer for laundry and carpet cleaning
- Comes in many fragrances types

PROPERTIES

Appearance: Clear liquid with odor and color characteristic to the fragrance type

Boiling Point: 212 °F

Specific gravity: 1.01-1.02 gr/cc

Chemical type: Multipurpose cleaner

pH: Neutral

Storage stability: Stable

% Volatiles: 85-90 %

Flammability: Non flammable

Solubility in water: Soluble

Packaging: 55 gal drums
5 gal pails
4 x 1gal and 6 x 1gal cases

- Properties are typical and subject to usual manufacturing tolerances.

MARVELOSO is a concentrated, deodorizer and multipurpose cleaner that can be used to clean all surfaces that are water washable. MARVELOSO contains a special blend of surfactants and aromatic oils that makes it ideal for cleaning and deodorizing all the areas in home, office and industry. It can also be used in institutional premises, hotels, mechanical shops, car washing operations, kitchen and restaurant cleaning. To use as a general cleaner, MARVELOSO can be diluted up to 15 times with water. Dilute into a bucket with water or use a spray bottle with the solution and apply onto surface, leave few seconds to act, then rinse the surface with mop or cloth and fresh water; leaving a pleasant fragrance on the entire area. To use MARVELOSO for deodorizing in laundry, a dilution of 20 parts water can be used. For Floor cleaning dilutions up to 10 parts of water are possible. Do not take internally. Avoid contact with eyes. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
