HULL CLEANER

FEATURES

- Proper pH control
- Prevents iron staining
- Neutralizes alkalis
- Removes water line stains on boats, due to mold or mildew
- Cleans and eliminates salt deposits
- Fast action
- Cost effective and easy to use
- Biodegradable

PROPERTIES

Appearance: Clear liquid with pleasant odor

pH : 2.0-3.0

Boiling point: 220 °F

Specific gravity: 1.10-1.15 gr/cc

Non volatiles: 15-20%

Storage stability: min. 1 year

Solubility: Complete in hard or soft water and all temperatures

Flammability: Non flammable

Packaging: 4x1 gallon Case
5 gallon Pail
35 gallon Drum

- Properties are typical and subject to usual manufacturing tolerances.

HULL CLEANER is a concentrated blend of inorganic and organic acids, formulated to neutralize or reset high pH surfaces to a neutral pH. This product is also effective to eliminate rust and darkening or staining due to the effect of alkaline salts on metals. HULL CLEANER should be used undiluted for heavy rust or heavy salts deposits removal and can be diluted with up to 5 parts of water for light duty jobs. Apply product with spray bottle or brush, allow to act for ten minutes and then remove with jet of water or with a damp cloth. This product formula is completely biodegradable and is not toxic to fish or marine flora. Care should be taken when handling this product; use safety gear such as rubber gloves and goggles. Keep away from children's reach. Refer to the attached SDS for precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
