## LOW ALKALINITY COIL CLEANER

# NO RINSE ADVANCED COIL CLEANER

### FEATURES

- Cleans coils and fins quickly without the need to rinse
- Powerful cleaning solution eliminates built up sludge, dirt, grime, silt, algae and mold
- Does not damage the integrity and functionality of aluminum or other metals
- Contains non ionic detergents, cleaning actives and glycols

### PROPERTIES

**Appearance:** Transparent, apple green liquid of low viscosity.

**Odor:** Low characteristic citrus odor.

**Non volatiles:** 14-16%

**pH:** 11-12

**Specific gravity:** 1.02 - 1.04 gr/cc

**Boiling point:** 212 °F

**Flammability:** Non-flammable

**Solubility:** Total

**Storage stability:** Store product in original container, closed and away from direct sun light. Do not mix with other products

**Packaging:** Cases - 6x1 or 4x1 gal  
Pails - x 5 gal  
Drums - x 55 gal  
Totes - x 275 gal

NO RINSE ADVANCED COIL CLEANER is a special blend of surface active agents, solvents, and rinse aid additives, formulated to penetrate and quickly clean the coils and metal fins of air conditioning units. NO RINSE ADVANCED COIL CLEANER eliminates most sludge, dirt, grime, silt, algae, slime and mold build up from air conditioning, heating, and refrigeration systems coils of any size. Our special blend does not etch nor attack aluminum and other metals, but safely cleans coils and fins and eliminates the need of large amounts of water and other rinsing compounds. It is recommended for coils that have to be reconditioned or maintained, not for heavily dirty coils or coils that have not been serviced for more than a year; for those cases we recommend cleaning with Chemtron Fin Clean.

NO RINSE ADVANCED COIL CLEANER can also be used on any heat transfer machinery, heat pumps, water coolers, ice machinery, fans and filters.

**DIRECTIONS FOR USE:** Product can be used pure or in dilutions up to 1 part product to 5 parts water, depending on the job. Use with a low pressure pump sprayer thoroughly covering the surface or apply with mop or cloth for hard surface cleaning and degreasing. Allow to act for several minutes on surface, then it can be rinsed with clean water or allowed to air dry. Refer to the attached SDS for safety and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
