

SPECIALTY CLEANER

# PIPE SCALE ELIMINATOR

## FEATURES

- Powerful and concentrated cleaner
- Removes scale, build up, and all types of organic deposits
- Works on Plastics and is ideal for pipes and coils.
- Not recommended for use on Aluminum

## PROPERTIES

**Appearance:** Clear liquid with acid odor.

**Boiling point:** 212 °F

**Specific gravity:** 1.20 gr/cc

**Non volatiles:** 30 %

**Solubility in water:** Soluble

**Storage stability:** Keep away from direct heat and oxidizers

**pH of liquid:** Acidic

**Flammability:** Non-flammable

**Packaging:** 5 gallon Pails  
15, 30, and 55 gallon Drum  
330 gallon Tote

- Properties are typical and subject to usual manufacturing tolerances.

PIPE SCALE ELIMINATOR is a concentrated acid based cleaner that removes scale produced by minerals in metal and plastics. PIPE SCALE ELIMINATOR contains a combination of Hydrochloric and other inorganic acids, a surfactant compound that acts as a anti re-deposition agent and a corrosion inhibitor chemical that prevents rusting and oxidation. Use in recirculation manner, undiluted or diluted 1:4 with water, depending on the gravity of the scale formation. It is recommendable to neutralize after use with a base.

PIPE SCALE ELIMINATOR is a strong acid. Handle with due care. Use safety goggles and acid resistant gloves. Refer to the label and attached SDS for instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
