

SPECIALTY CLEANERS

RUST OFF

FEATURES

- Strong, fast action acid - detergents combination.
- Eliminates rust and stains on metals and concrete
- Thick formula clings to substrate
- Dissolves scale and metal oxides
- Removes metal oxidation marks from cement and pavers
- Pleasant citrus odor
- Biodegradable

PROPERTIES

Appearance: Thick red liquid with citric odor

Odor: Citric fragrance

pH: 1-2

Specific gravity: 1.10 - 1.20 gr/cc

Non volatiles: 10-14 %

Chemical type: Acid Cleaner

Storage stability: Keep away from sun light and Alkaline products.

Boiling point: 212 °F

Flammability: Non-flammable

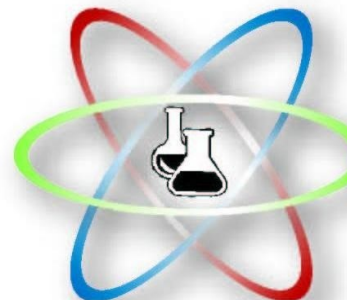

Solubility: Totally water soluble

Packaging: 4x1 gallon case
5 gal pail
55 gal drum

RUST OFF is a concentrated acid cleaner, formulated with a combination of inorganic acids and biodegradable detergents. RUST OFF quickly removes rust stains and oxidation salts on metals. RUST OFF is recommended to remove metal oxides and rust from sprinklers as well as concrete residues and slime from tiles and cement floors, restoring their original look. Use RUST OFF on metals, plastics, and cement floors. Do not use on chrome, magnesium or aluminum. Spot test before using. RUST OFF is recommended for use in hotels, schools, clinics, restaurants, institutions, commercial establishments and industry.

To use, pour 2 to 4 oz of RUST OFF on surface to be treated, be sure to cover all surface. If needed, use a brush, sponge or mop to remove heavy soils or very old stains. Allow few minutes to act. Finally, rinse with water. Repeat operation as needed. For best result rinse with high pressure water jet. It is recommended to paint surface immediately after cleaning. RUST OFF contains strong acids. Wear safety apparel including gloves and safety goggles. Keep away from children and do not mix with any other chemicals. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
