SURFACE STAIN REMOVER

RUST STAIN REMOVER

F E A T U R E S

- Mild Organic blend formula
- Fast action formula
- Totally water soluble
- Cleans and eliminates rust stains from all surfaces, without damage to paints
- Totally Biodegradable
- No odor
- Fast rinsing, fast drying
- Will not harm plants or grass

P R O P E R T I E S

Appearance: Hazy to clear white liquid.

Odor: No odor

Viscosity: low, 50 cps

pH: 1-3

Specific gravity: 1.20 gr/cc

Non-volatiles: 36-38 %

Chemical type: Acid Cleaner

Storage stability: Keep away from direct sun light and alkaline products.

Boiling point: 240 °F

Flammability: Non-flammable

Packaging: 4x1 gallon Case
5-gallon Pail
55-gallon Drum

- Properties are typical and subject to usual manufacturing tolerances.

Rust Stain Remover is a blend of organic acids, formulated specifically to remove rust stains from surfaces without affecting the substrate and leaving a spotless clean finish. It is low odor and has no-color, so it can be used on most surfaces, but application on a small area of the target surface is recommended to test for performance. Apply product undiluted, with sprayer or brush and leave for 5 to 15 minutes and see how the stain disappears. Rinse with water, wet cloth or mop or simply leave to dry. **Rust Stain Remover** can be used to re- move rust stains from tiles, walls, paint, metal, wood, stone, fiberglass and glass windows; do not allow product to dry on glass. Avoid contact with eyes and skin. Do not ingest. Refer to the MSDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
