METAL POLISHER

SHINE UP

FEATURES

- Water-based Metal Cleaner and Polisher
- Effective on All Metal Surfaces
- Odorless
- Unique 360° Valve allows for spraying in upright or inverted position

PROPERTIES

Appearance: White liquid with characteristic odor.

Boiling point: 226.4 °F

Specific gravity: 0.86 gr/cc

Non volatiles: Not Determined

Solubility in water: Negligible

Flash point: -156 °F

Storage stability: Keep away from direct sun light and open flames

Flammability: Flammable Aerosol

Packaging: 12x16oz Net Wt. Cans/Case

SHINE UP is a light cream made entirely of food grade ingredients that cleans and polishes all metal surfaces. It quickly removes tough oil based stains, water marks, spots and stains of food origin from stainless steel, chrome, silver, aluminum, enamel, and porcelain. SHINE UP clings to vertical surfaces for easy wipe-out. Its odorless properties enable it to be used in confined spaces. It can be applied directly to wet surfaces, eliminating the need for initial drying necessary with most oil-based metal polishers. It is easy wiped down and leaves a unique soil resistant coating.

Refer to the label and attached SDS for instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
