

ODOR CONTROL**SMO****FEATURES**

- Very effective, fast acting formula
- Specially formulated for Smoke and Tobacco odors
- Leaves a pleasant fragrance to surfaces
- Neutralizes strong aromatic smells
- Fast drying
- It is safe on fabrics
- Safe to the environment

PROPERTIES

Appearance: Light-hazy solution, no color

Odor: Floral /Bouquet

Viscosity: 50 cps

pH: 7-8

Specific gravity: 0.90-1.00 gr/cc

Boiling Point: 212 °F

Non Volatiles: 1-5 %

Solubility in Water: Total

Chemical Type: Odor encapsulating silicone based molecule.

Flammability: Non-flammable

Packaging: 12x8oz Net Wt. Bottles/Case

- Properties are typical and subject to usual manufacturing tolerances.

SMOKE OUT! is a continuous action, liquid air freshener concentrate, specially formulated to counteract and eliminate Smoke and Tobacco odors. The novel active ingredients in this product also encapsulate strong aromatic smells like tar, nicotine, and other inorganic molecules. **SMOKE OUT!** contains a silicone-based molecule that will not harm hard surfaces or fabrics.

To use, apply the product undiluted and spray a fine mist over the whole surface exposed to smoke or undesired odors. It is also recommended to apply the product in the intakes of air conditioning units. **SMOKE OUT!** will act initially as an air freshener, but its real action will begin after a short period of time when it traps and suppresses the unwanted odor molecules. Finally, wipe off surfaces to remove excess deposited product. Refer to the attached SDS for precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
