

SPECIALTY CLEANER

SPARKLE

FEATURES

- Polishes and protects
- Cleans and degreases
- Special stains-remover formula
- Safe to handle
- Can be easily applied and removed
- Use on most metal surfaces
- Does not affect painted surfaces
- Fast action and very efficient
- Does not leave a messy residue
- Does not contain harsh abrasives
- Leaves a smooth surface

PROPERTIES

Appearance: Thick liquid, brown-orange color and ammoniated odor

Vapor density (air=1): >1

Specific gravity: 1.08 gr/cc

% Volatiles : 80-90 %

pH: 9.5-10.5

Chemical type: Liquid alkaline cleaner

Storage stability: Keep away from heat and store below 120 °F.

Boiling point: 180-400 °F

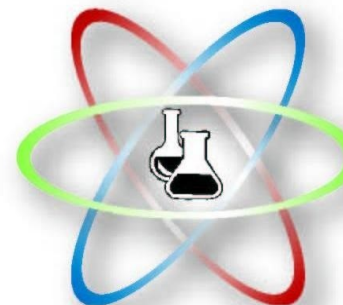

Flammability: Non flammable liquid

Solubility in water: Partial

Packaging: 12x16oz Net Wt. Cans/Case

SPARKLE is a soft liquid cleanser that cleans, de-stains and polishes most metal surfaces. Use on sink and tub metal fixtures, shower metal parts, banisters, hand rails, door knobs, faucets, drinking fountains and in general on materials like chrome, brass, copper, aluminum, silver and stainless steel. SPARKLE is very effective removing soap scum, rust, stains, hard water and salt deposits, metal oxides, scale and other stubborn spots and stains. For best results apply a small amount onto the surface to be cleaned using a moist sponge, pad or cloth. Loosen soil with gentle scrubbing action. Finally remove excess product by wiping surface clean and dry with sponge or cloth. SPARKLE does not leave powdered residues and restores the original luster to metals. Keep container closed when not in use. Avoid contact with eyes. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
