

CARPET CARE

SPRINKLE IT

FEATURES

- Deodorizer and Air Freshener
- Counteracts surface odors
- Economical
- Fine Crystalline structure makes it nearly invisible
- Non flammable
- Effective in moist areas
- Covers great surface area
- Easy to dispense container
- Use on carpets, upholstery, rugs and refuse areas
- For fast and safe jobs
- Biodegradable

PROPERTIES

Appearance: White crystalline powder, Fresh and Clean fragrance

pH: N/A

Solubility: Not soluble in water

Specific Gravity: 1.2-1.4 gr/cc

Non volatiles: > 95 %

Flammability: Non Flammable

Storage: Keep in original container. Maintain closed, well sealed and away from direct sun and moisture.

Packaging: 12 x 25oz Nt. Wt. Cans/Case

- Properties are typical and subject to usual manufacturing tolerances.

SPRINKLE IT is a fine crystalline powder that quickly and easily eliminates malodors whenever they occur. It settles into fabrics depositing its minuscule and nearly invisible particles that release a clean, fresh fragrance and absorbs unpleasant odors trapped in carpets, rugs and upholstery. SPRINKLE IT also reduces static charge build up. Will not cake or clump when used on moist or wet surfaces since it does not dissolve in water. Can be collected with vacuum when desired and reapplied for continuous action. It will not damage vacuum and is not flammable.

SPRINKLE IT is ideal to eliminate offensive odors caused by smoke, pets, cooking, garbage, mildew and many others. Use in apartment buildings, hotels, homes, offices, schools, churches, hospitals, dumpsters and many other areas. To use, simply flip spout open and sprinkle lightly over areas to be treated by shaking bottle gently side to side; it is not necessary to cover entire area. Refer to the attached SDS for additional directions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.

MATERIAL SAFETY DATA SHEET

For Chemical Emergency Spill, Leak, Fire Exposure or Accident
Call INFOTRAC Day or Night
North America: 800-535-5053 International (collect calls accepted): 1-352-323-3500

Date: 05/05/2008

Section 1- Manufacturer Information

Chemtron, 7725 W. 2nd CT. Hialeah, FL 33014 USA

Section 2- Product Identification

Product Name: CT-935 SPRINKLE IT
DOT Proper Shipping/ Hazard Name (49 CFR 172.101): not DOT regulated
DOT ID # (49 CFR 172.101): NR
DOT Hazard Class (49 CFR 172.101): NR

FLAMMABILITY (Red): NFPA: ND HMIS: 0
HEALTH (Blue): NFPA: ND HMIS: 1
REACTIVITY (Yellow): NFPA: ND HMIS: 0
Personal Protection (HMIS)= C

Section 3 - Components

<u>Component</u>	<u>CAS#</u>	<u>ACGIH(TLV-TWA)</u>	<u>OSHA (TWA)</u>
Silica-Amorphous	112926-00-8	10mg/m3	NA

Section 4-Physical Data

Boiling Point: NA
Vapor Pressure: ND
Solubility in Water: not soluble
% Volatile: 1-5 % max

Specific Gravity (bulk density): 1.2 - 1.4 gr/cc
Vapor Density: (Air=1): ND
Appearance: White crystalline powder with Floral fragrance

Section 5 – Fire And Explosion Data

Flash Point: None, non flammable.
Flammable Limits in Air: Upper: ND Lower: ND
Extinguishing Media: Use procedure for fighting surrounding fire.
Hazardous Decomposition Products: Produces some carbon oxide gases
Firefighting Procedures: Wear self-contained breathing apparatus with a full facepiece operated in the positive pressure demand mode when fighting surrounding fires.
Special Fire and Explosion Hazards: None.

Section 6 – Health Hazard Data

Effects of Acute Overexposure:

Skin: Prolonged contact can cause irritation.

Eyes: Can cause irritation, redness and scratching of the cornea.

Breathing: Excessive inhalation of dust can cause nasal and respiratory irritation.

Swallowing: Can cause gastrointestinal irritation, nausea, vomiting, diarrhea.

Primary Route of Exposure: Skin, inhalation and eyes.

First Aid:

If On Skin: Thoroughly wash exposed area with soap and water.

See a doctor if irritation is present

If In Eyes: Immediately flush with large amounts of water, lifting upper and lower lids occasionally. Seek medical attention if irritation is present.

If Breathed: If affected, remove individual to fresh air. If breathing is difficult, administer oxygen. Keep person warm and quiet. Get medical attention.

If Swallowed: Do not induce vomiting. Rinse mouth with water, then give a glass of water or milk to drink. Keep person warm, quiet and seek immediate medical attention.

Section 7 – Reactivity Data

Stability: Stable

Incompatibility (Materials to Avoid): Reactive metals and acid products.

Hazardous Polymerization: Will not occur

Conditions To Avoid: None

Section 8 – Spill, Leak & Disposal Procedures

Small Spill: Pick up with brush and pail or with vacuum.

Large Spill: Prevent from entering drains, sewers, streams or other bodies of water. Vacuum transfer spilled product to clean containers for recovery.

Dispose according to local laws.

Waste Disposal Method:

Disposal should be made in accordance with federal, state, and local regulations.

Section 9 – Protective Equipment To Be Used

Respiratory Protection: If workplace exposure limits product or any component is exceeded a NIOSH/MSHA approved air supplied respirator is advised in absence of proper environmental control. OSHA regulations also permit other NIOSH/MSHA respirators (negative pressure types) under specified conditions. Engineering or administrative controls should be implemented to reduce exposure.

Ventilation: None needed. Provide sufficient mechanical ventilation to maintain normal levels.

Protective Gloves: None needed under normal use. Use Rubber gloves if prolonged contact with skin is anticipated.

Eye Protection: None required, use chemical splash resistant goggles if airborne dust is anticipated.

Other Protective Clothing & Equipment: None

Section 10 – Storage & Handling

KEEP OUT OF REACH OF CHILDREN. Avoid contact with open wounds. Always wash hands with soap and water after use.

For industrial and institutional use only. Store in a cool, dry area away from heat or open flame. Do not store at temperatures in excess of 120°F for prolonged periods.

Always store in original container. Follow all label instructions and precautions.

Section 11 – Special Precautions Or Other Comments
