

DEGREASERS**TITAN****FEATURES**

- Industrial degreaser
- Excellent wetting and penetration
- Rapid action
- High Alkalinity
- Biodegradable
- Even highly diluted with water is very effective
- Economical
- Efficient

PROPERTIES

Appearance: Transparent blue liquid

Odor: Degreaser like

Viscosity: Water like viscosity

pH: 14

Specific Gravity: 1.09 gr/cc

Non volatiles: 7-8 %

Chemical type: Alkaline degreaser

Stability: Keep in fresh storage, in original container

Boiling Point : 100 °C

Flammability: Non-Flammable

Packaging: 55 gallon Drum
5 gallon Pail
275 gallon Tote

- Properties are typical and subject to usual manufacturing tolerances.

TITAN is a high concentration, alkaline degreaser used to remove fat, dirt, oils and stains from floors and walls. It can be used on various surfaces including metal, plastic, rubber, fiber glass, and steel and is ideal for use in workshops, parking lots, marines, engines, restrooms, restaurants and laundry shops. Before using TITAN, apply product to a small area to test for discoloration or any other unwanted effects. TITAN can be diluted up to 10 times with water for light work and daily cleaning without need for much effort or time to do the job. Simply apply the product onto the desired surface using a sprayer or power spray, leave to act for a few minutes and rinse with a jet of water or cloth. This product is corrosive and can damage the eyes and skin, handle with due care. Keep away from the reach of children. Refer to the attached SDS for additional precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
