

GREASES

WHITE LITHIUM GREASE SPRAY

FEATURES

- Multipurpose grease
- Contains no chlorinated solvents
- Withstands temperatures between 0 and 350 °F
- No hexane – No CFC's
- Excellent Water and Weather resistance
- Excellent Penetration and Lubrication
- Non-staining white color indicates lubricated areas

PROPERTIES

Appearance: White opaque thick liquid with characteristic solvent odor; (Liquid in the can)

Water resistance: Excellent

Boiling point: 368.6 °F

Chemical type: Lithium grease

Total VOC: 80 %

Solubility in water: Negligible

Flammable Aerosol: Contains liquefied gas propellant

Packaging: Case of 12 x 11 oz cans

- Properties are typical and subject to usual manufacturing tolerances.

White Lithium Grease Spray is a powerful, weather resistant, multipurpose lubricant grease. This grease is formulated with materials that makes it water resistant and temperature resistant up to 350°F. **White Lithium Grease Spray** is an outstanding grease for every phase of lubrication and ideal for outdoors use. Its white color helps indicate lubricated areas and reduces staining. It is ideal for automobile doors, hoods and trunk lids, gears, chains, sprockets, linkages, slides, bearings, hinges, cranks, pinions and rollers. **White Lithium Grease Spray** penetrates like an oil then cures to a thick grease. Apply spraying on clean dry surface at a 6 to 8 inches distance; insert extension tube into actuator orifice for pinpoint application. Refer to the attached SDS for precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by ChemTron.
