AUTOMOTIVE CARE

CHEM FUEL ADDITIVE

FEATURES

- Concentrated Fuel Conditioner
- Boosts power
- Gives faster start and smoother ignition
- Increases combustion efficiency
- Makes fuel last longer and promotes cost savings
- Improves fuel thermal and storage stability
- Reduces smoke
- Inhibits carbon build up
- Releases insoluble gums
- Reduces exhaust emissions

PROPERTIES

Chemical Composition: Blend Hydrocarbon Solvents and Petroleum Distillates

Appearance: Transparent, Colorless Liquid

Odor: Petroleum Distillate Odor

Density: 0.79-0.81 g/ml @ 15.6 °C

Solubility in water: Negligible

Storage stability: Keep away from open flames, high temperatures and oxidizers

Flammability: Flammable liquid

Flash point: >42 °C

Boiling point: 157-203 °C

Vapor pressure: 5.6 mmHg @20 °C

pH: Not Determined

Packaging: 1 x 5 gallon Pail
1 x 55 gallon Drum

Properties are subject to usual manufacturing tolerances.

CHEM FUEL ADDITIVE is a concentrated fuel conditioner that is specifically engineered to improve engine efficiency in both diesel and gasoline engines. It is formulated to make fuel last longer, start quicker, give more power, and emit fewer exhaust byproducts. It is completely miscible in fuel and will aid re-liquefying jelled fuel, minimizing carbon buildup on ports and chambers, cleaning injector passages and preventing buildup deposits on tips.

CHEM FUEL ADDITIVE can be used in all types of diesel and gasoline engines. With treated fuel, improved engine performance should occur within the first 2-3 hours of operation for an engine in good condition. Add the CHEM FUEL ADDITIVE directly in the fuel, either in the vehicle or equipment tank or in the bulk storage tank. For the first full tank use, dilute 1 ounce (30mL) to 10 gallons (38L) of fuel and add it directly to the engine. For subsequent uses or storage, dilute 1 gallon of CHEM FUEL to 1000 gallons of fuel.

Use with caution and provide adequate ventilation, as this product is highly flammable. Refer to the label for complete usage instructions and the SDS for important precautions, hazards, and proper PPE.
