Boiling point: 212° F

Flammability: Non-Flammable

pH: 8-9

Packaging:

5 gal Pail

4x1 Gallon / Case

Properties are subject to usual manufacturing tolerances.

CLEANER AND FRESHENER is a concentrated, multipurpose cleaner and deodorizer with a pleasant fresh and clean scent that cleans without leaving a residue for a more sparkling surface shine. Surfaces treated with this product also resist soap scum and grease, making cleaning faster and easier. Used as a glass cleaner provides an anti-fog benefit.

CLEANER AND FRESHENER contains a special blend of surfactants and polymers that make it ideal for cleaning and protecting multiple surface types. Applications include commercial and institutional facilities, hotels, restaurant kitchens and shops. It can be used to clean high touch surfaces such as tables, handrails, doors, and walls made of plastic, glass, or wood material.

For use as a general purpose cleaner, **CLEANER AND FRESHENER** can be diluted with from 5 to 10 parts water in a bucket or spray bottle. It can be applied directly to surfaces or with cloth, sponge or brush. Surfaces should be rinsed with fresh water. Refer to the label for usage instructions and the SDS for important precautions and proper PPE.
