PROFESSIONAL CLEANING PRODUCTS

AEROSOL CLEANER

CONTACT CLEANER

EATURES

- Removes contaminants from electronic and electromechanical parts
- Non-Flammable Spray
- Dries fast and leaves zero residue
- Non-corrosive
- 31,000 Volt Dielectric Strength
- For use on circuit boards, circuit breakers, terminals, tuners, office equipment, audio and visual recording equipment

Chemical Composition: Chlorinated and

Fluorinated Solvent Mixture

Appearance: Colorless Liquid

Odor: Faint Solvent Odor

Density: 1.55 g/ml **Non volatiles:** <1 %

Solubility in water: Insoluble

Storage stability: Keep away from high

temperatures, flames, and acids

Boiling point: 124 °F

Flammability: Non-Flammable Aerosol

pH: N/A

Packaging:

12 x 10 oz Net Wt. Cans / Case

Properties are subject to usual manufacturing tolerances.

CONTACT CLEANER is a high purity, high dielectric strength, non-flammable spray specially formulated to remove oil, grease, condensation, and other contaminants from sophisticated electronic and electromechanical parts.

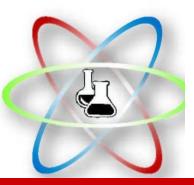

CONTACT CLEANER is fast drying. The solvent system has tested safe on: Neoprene, Buna, Silicone, Butyl and Natural Rubber, Nylon, Hypalon®, PTFE, PVC, Polyurethane, Polyethylene, Polypropylene, and Epoxy materials. Its 31,000 dielectric strength makes it ideal for use on circuit boards, circuit breakers, relays, control panels and other electronic equipment. Not recommended for use on Acrylic, ABS or Polycarbonate materials. For best results, spot test on a small hidden surface area prior to general use.

CONTACT CLEANER is Ready-To-Use and can be sprayed directly onto the target surface. An extension tube can be used for hard to reach areas. Refer to the label for usage instructions and the SDS for important precautions and proper PPE.
