

## METAL TREATMENT

# RUST CONVERTER GEL

## FEATURES

- Two in one copolymer rust treatment
- Clings to vertical surfaces
- Neutralizes rust
- Leaves black acrylic protective coating
- Prevents future rusting for up to 1 year
- Dries in 30 minutes
- Non-flammable, water based polymer

## PROPERTIES

**Appearance:** Milky white/beige paste.

**Boiling point:** 212 °F

**Specific gravity:** 1.05-1.10 gr/cc

**Non volatiles:** 25 %

**Solubility in water:** Soluble

**Flash point:** None

**Storage stability:** Keep away from strong oxidizers

**pH of liquid:** 4-5

**Flammability:** Non-flammable

**Packaging:** 4x1 gallon Case  
5 gallon pail  
55 gallon drum  
275 gallon tote

**Rust Converter Extreme** is a combination of acrylic copolymers and acids that will neutralize rust and leave a black glossy coating of acrylic paint. It converts rust into an acrylic-iron coating. It also prevents future rusting for up to one year. **Rust Converter Extreme** is easy to apply and may be brushed or rolled on. It combines two steps in one; a single application neutralizes rust and leaves a protective black acrylic coating. Product will dry within 30 minutes and it can easily be cleaned up by washing down with water.

Refer to the label and attached SDS for instructions and precautions. The information contained in this safety sheet is aimed at creating a guide for the selection and use of the product. However, we are not responsible for any use not recommended by Chemtron.
